OUR VISION

Keep our customers happy by providing BEST PRODUCT, BEST PRICE and BEST SERVICE and thereby their first choice.

OUR MISSION

Since our birth in 2001, Hydrotec aims to support all customers by providing excellent after sales service. Our well trained, qualified and experienced service teams are available round the clock providing professional onsite assistance, throughout the week, month and year. We have "NO HOLIDAYS" within the service section. As we have a right goal and follow the right path we believe that any time is the right time to serve a customer in the best possible manner. Customer is always the centre of attention in our business. Our basic principle in Sales and Service is that 'HONESTY determines SUCCESS' and through this we aim to grow HYDROTEC as the best and final destination for Hydraulic Hose sales and service, and, this reassures that your decision to deal with us is right. By standard we follow a policy - "Care from the Heart" for each customer. And in this juncture why should we compromise? When we can have it all? Yes we can....!

OUR COMMITMENT

An impulsive action without delay is our commitment to customers, because we know that a delayed action is loss of time and money, and you can trust on us for any of your hose related requirements. We advise our customers to relate the benefits (value) of our service to their needs and make sure that ours is the best hose management. The life span of hydraulic hose is limited and there are enough instances wherein it can get damaged and our well trained, qualified and experienced mobile service teams will be available for onsite assistance round the clock. We can rectify any kind of complaint in your hose, fittings or its accessories within the shortest time assuring you full peace of mind and continuity of smooth operations.

ABOUT US

Hydrotec Trading LLC is an ISO 9001 certified Company with over 13 years hands on experience in hydraulic hose supply and servicing in UAE. We aim to improve our business activities continually and reassure quality service with a priority to long term relation. We follow instructions of manufacturers for proper preparation & fabrication of hose assemblies to ensure the best result and customer satisfaction. Our assurance is that we are reliable and safe and therein, responsibilities to our customers are redefined within us. Our Mobile Service Centers (MSC) are live round the clock anywhere in UAE and reachable in Dubai in less than thirty minutes to extend our professional onsite assistance. Our Onsite computer billing assures accountability and our own tag system for an excellent service warranty. The GPS installed Mobile Service Vans assure our immediate service support.

CERTIFICATIONS

Hydrotec Trading LLC is certified as an ISO 9001 Quality Management System. However, our most important certificate is the confidence & satisfaction of our customers in our business. Good quality for us means excellent performance with zero defects. We prefer to interact with customers in the coolest way and with utmost sincerity. Immediate action resorted to customer requirements whether big or small, forms our basic policy and that differentiates us from our competitors.
